PROFILE

Full-stack engineer with 4+ years building e-commerce stores and web applications. Lead the Shopify team at Gigalabs: custom Liquid themes, headless Hydrogen storefronts and Shopify apps backed by Node.js. Also build full-stack products in React/Node/PostgreSQL and Laravel, from scoping with clients through launch and ongoing support.

EXPERIENCE

Shopify Developer (Team Lead)
Jan 2022 – Present

Gigalabs (Pvt) Ltd. · Lahore

- Lead the Shopify team: scope client requirements, plan builds and review the team's work across client stores.
- Build and customise Shopify and Shopify Plus themes (Liquid, HTML, CSS, JavaScript), turning UI/UX designs into responsive, fast storefronts.
- Develop headless storefronts with Shopify Hydrogen and custom Shopify apps with React, Node.js, Express and MongoDB, integrating Shopify REST/Admin APIs.
- Core developer on Criterion Research, an oil & gas research platform (React, Node.js, PostgreSQL, styled-components).
- Lead developer on a Laravel/Blade/Vue business-brokerage platform: listings with advanced filters, buyer registration, DocuSign and Google Calendar integrations, Dockerised DigitalOcean deployment with CI.
- Technical point of contact for clients; set up GA4, Meta Pixel, Klaviyo/Mailchimp and PageFly on stores.

Web Development Intern
Oct 2019 – Dec 2019

Gigalabs (Pvt) Ltd. · Lahore

- Three-month programme covering HTML, CSS, JavaScript, Bootstrap and Shopify Liquid; built a drag-and-drop sequence game in vanilla JS and learned Shopify storefront and app APIs.

Web Development Intern
May 2019 – Jul 2019

Pakweb · Lahore

- Algorithms and object-oriented programming in JavaScript.
